UNIVERSITY SCRAPBOOKS
1918-1923 and 1948-Present

The Office of University News and Publications, and its predecessors, created the UNIVERSITY SCRAPBOOKS from newspaper articles sent to the University by a clipping service. These articles cover academic affairs, student life, faculty matters, alumni news, campus administration, athletics, social events, and general news as it relates to the University of Wisconsin-Eau Claire. The series provides an excellent reflection of the university community as presented in the press. The clippings include articles generated by campus press releases and by independent reporting.

Although a small amount of material dates to 1918-1923, no scrapbooks seem to have been maintained between 1923 and 1948. The scrapbook which covered 1918-1923 was remounted to facilitate filming. Its creator is unknown, but the subjects covered by its clippings are similar to those of the post 1948 scrapbooks.

Between 1918 and May 1977 the series is arranged chronologically. After May 1977, the Office of University News and Publications switched to arrangement by year and by subject thereunder.
